

**WOODSBATWING®**  
FOLDING WING ROTARY CUTTER

BW180

**WOODSBATWING®**

**WOODS®**

## BW180™ 15-Foot Batwing®

Woods took rotary cutters to a new level of performance when we introduced the first Batwing® in 1964 – and we've led the industry in innovation and performance ever since. Over the years, Woods engineers have continually improved the line, adding such features as quick-change wing clutches and blade systems. Innovative design features like the smooth, sloped deck and extra-deep side frames have made Woods Batwings more productive and durable than imitations.

Now, Woods introduces a new 15-foot rotary cutter – the BW180™. This Batwing incorporates many of the exclusive design features of our heftier models, with the performance and price of a standard utility cutter. Our smooth, sloped top deck sheds water and debris resisting rust and corrosion. An eleven-inch deep side frame offers maximum material capacity. The CV drive is available on 540 and 1000 rpm models, with an equal angle drive choice for 540 rpm models. The BW180 features four 160/120 hp gearboxes that perform powerfully and reliably for years and years – our five-year warranty ensures it. Designed for low-cost and easy maintenance, the BW180 is your best buy for durable, reliable performance.

So go on, compare us to other folding wing rotary cutters. You'll discover why a Woods Batwing is the original – and still the best.

### STANDARD-DUTY BW180

*Category 5 main drive;  
45-160 PTO hp tractors*

- Higher torque capacity than most competitors
- Smooth, sloped deck sheds water and debris, resisting rust and corrosion
- 160/120 hp gearboxes with 5-year limited warranties ensure years of worry-free performance
- CV driveline is available on 540 rpm and 1000 rpm models, with an equal angle drive as an available choice for 540 rpm models
- Eleven-inch deep side frame for maximum material capacity
- Trims close to objects due to innovative wing design
- 24-inch, full-length replaceable side skids feature a large wear surface for greater durability and a formed angle to prevent scalping
- Flip-up shields offer full and easy access to the drive, clutches, and gearbox
- Floating cylinder link on each wing extends the cylinder life
- Safety lock easily secures deck for safe, simple transporting

### PERFORMANCE GUIDE

Ideal for maintaining grassy fields, pastures, and waterways, and cutting weeds and light brush up to two inches in diameter.

## 11-inch deep side frame

Eleven-inch deep side frame and sloped deck has greater material capacity for efficient, productive cutting.

## Standard stump jumpers

Standard stump jumpers protect gearbox from obstructions and six inches of overlap ensure a clean cut.

# 5-year gearbox warranties

All gearboxes carry 5-year limited warranties to ensure years of worry-free performance.

Shown with optional chain shielding. Rubber shielding is standard.

## Greaseable pivot points

All pivot points on the turnbuckle and axle arms are lubricated to increase durability and reduce wear. The wheel yoke is straddle mounted and pinned in six places to further improve durability and service life.

## Narrow transport width

Wings independently fold up to 96-inch transport width and lock securely for quick and easy transport.

## Easy access

Flip-up shields offer full and easy access to the drive, clutches, and gearbox.

## Specifications

### BATWING

#### BW180

Cutting width	180"
Overall width	190"
Transport width	96"
Overall length	180"
Weight	3,920 lbs.
Cutting height	1"-15"
Cut capacity	2" diameter
Deck thickness	10 ga.
Side skirt thickness	1/4"
Side skirt depth	11"
Wing flex	90° up/ 22° down
Hinge rod diameter	1"
Driveline rating: Main	cat. 5
Driveline rating: Wing	cat. 4
Drivetrain configuration	4 gearbox
<b>Gearbox hp rating</b>	
Power divider	160 hp
Center and wings	120 hp
<b>Gearbox warranty</b>	5 years
Output shaft diameter	2"
No. of spindles	3"
Blades	1/2" x 4"
Blade carrier	Round
Blade overlap	6"
<b>Tip speed</b>	
540 rpm	14,965
1000 rpm	15,450
<b>PTO hp</b>	45-160 hp

skid steer attachments

backhoe buckets  
excavator

bucket couplers

scrapers  
front-end loaders  
groundbreaker

backhoes

mowers  
turf batwing  
turf renovators

WoodsCare

**WOODS** tools for  
productivity

We manufacture a world of tools to make you more productive. WoodsAgricultural™ offers tractor-powered productivity tools for cutting, shredding, and specialty agricultural applications. WoodsLandscape™ provides tractor and self-powered tools for mowing, landscaping, and general grounds care. WoodsConstruction™ supplies buckets, coupler systems, and other attachments for construction applications. WoodsCare™ provides parts and services for the total ongoing care of your Woods equipment. Woods Tisco™ supplies a comprehensive line of aftermarket replacement parts and accessories.
